

PROGRESS REPORT

Elizabeth Hill Silver Project-West Pilbara , WA

Munni Munni Joint Venture

**Legend Mining Limited (33.1/3%)
(With the right to increase to 50%)
(ECM 66.2/3 %)**

Thirty Two RC holes totalling 4000m have been completed at the Elizabeth Hill project.

Visible silver is present in several holes around the old mines shaft, but grades and widths of mineralisation will only be known when assaying has been completed. A report on the drilling will be released when final assay results are available and the silver potential of the prospect can be properly evaluated.

ON BEHALF OF THE BOARD OF LEGEND MINING LTD

MURRAY McDONALD
DIRECTOR

13TH December 2002

Information on exploration results contained in this release is based on reports compiled by consulting geologist Mr Finn Barrett MSc, MBSA, MSEG of Barret Exploration Pty Ltd.
