QUARTERLY REPORT for the period ended 31 March 2003

- New Chairman Appointed
 - Carlow Castle Drilling Planned
 - Munni Munni JV Interest Retained at 33 1/3%
-

1. CHAIRMAN

Kevin Watson retired as Chairman of Legend on the 14th February 2003. The board has greatly appreciated Kevin's dedication to the Company.

In his place, Michael Atkins accepted the board's invitation as non-executive Chairman. Michael is a Fellow of the Institute of Chartered Accountants in Australia and was a founding partner of a national accounting practice from 1979 to 1987.

Since 1987 he has acted as Executive Director and been involved in the executive management of several publicly listed resource companies with operations in Australia, USA, South East Asia and Africa.

Michael was founding Executive Chairman and later non-executive director of Gallery Gold Limited until 2000. He is currently a non-executive director of Aurex Consolidated Limited, Servicepoint Limited and Sun Capital Group Ltd.

2. CURRENT PROSPECTUS

Legend's prospectus currently on issue remains open. The directors are talking to interested parties in respect of finalising a raising.

3. KARRATHA GOLD AND BASE METALS PROJECTS

Carlow Castle (Legend 100%)

Drill planning for further testing of the Carlow South high grade gold-copper resource is continuing. At least three other high priority geophysical and geological targets in the immediate Carlow area will also be drilled, once funds from the current entitlement issue become available.

Recognition of the mineralisation potential of the Pilbara has been enhanced by recent exploration successes in the region. Fox Resources reported new high grade massive nickel-copper sulphide

intersections at Radio Hill adjacent to the mine, and De Grey Resources has discovered new gold and platinum prospects at Indee and Three Kings.

4. MUNNI MUNNI JOINT VENTURE (LEGEND 33 1/3%)

Following initial results of the detailed silver drilling programme during November to December 2002, check assaying of duplicate samples from critical intersections was carried out at two laboratories. The check results confirmed the original values, reported last Quarter.

The joint venture geologist has reported that high grade silver ore previously extracted from the Elizabeth Hill underground mine may be controlled by "chimney" zones where the carbonate alteration has been dissolved by circulating ground water. The remaining "chimneys" with high grade mineralisation are small deep targets difficult to explore by surface drilling. Further work should incorporate underground mapping of the "chimney" zones, but the cost of dewatering the mine is probably not justified with the current silver prices.

Legend's board decided to keep its interest in the joint venture at 33 1/3% and not to further increase to a possible 50%. As a result, Legend will not have to pay \$400,000 to East Coast Minerals NL or continue sole exploration funding, which would have been required had Legend elected to proceed.

Future silver exploration by Legend will be targeted on its 100% owned Maitland property, just to the north of the Munni Munni Joint Venture ground.

5. EMERALD GOLD PROJECT. (LEGEND 40%)

Hamill Resources Ltd is earning up to 80% by conducting exploration at Emerald, south of Mt Ida in the Eastern Goldfields and has identified by auger drilling two trends anomalous in gold, as reported last Quarter. No further fieldwork was reported during this Quarter.

Notes

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. an entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in mining tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 Issued and quoted securities. The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, AASB 1022: *Accounting for Extractive industries* and AASB 1026: *Statement of Cash Flows* apply to this report.
- 6 **Accounting Standards** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
